

FasT.txt Certification

- ✓ Speed
- ✓ Quality
- ✓ Handling
- ✓ Flexibility
- ✓ Reliable formatting

This covers the overall process of translation as well as all other aspects related to provision of the service, including quality assurance and traceability.

This standard provides the description and definition of the entire service for both the translation service providers and their clients. At the same time, it is designed to provide translation service providers with a set of procedures and requirements (human and technical resources, quality control system and project management) to meet the needs of the market.
